

ATTENTION: BERGEN COUNTY HOMEOWNERS

- Do You Suffer from Dry, Irritated Skin?
- Hate the way your Water Smells & Tastes?
- Worried about the Invisible Contaminants in your Water *Everytime You Shower*?
- Can't Stand Wasting Money on Bottled Water?

Did you know some Bergen County homes are at high risk for water contamination that may contribute to serious health conditions - including dry itchy skin and premature aging?

Everytime you shower or bathe, your skin pores open up and absorb all the invisible pollutants, disinfectants and contaminants. Worst part is - you can't see them!

Find out whether your home is at risk by calling Jay Ell Plumbing & Heating at (201) 207-4090.

You'll receive a free report of the most recent government analysis of your water...plus a free DVD with plain-English descriptions of what it means to you and your family. Best of all, we'll tell you exactly what steps you can take to protect yourself and provide peace of mind! **And if you call before April 30th**, you will receive a **10% discount certificate** off a Krystal Klear Whole-House Water System - exclusively for Bergen County Homeowners!
